

ACTIMAX has been named as Inter-Tel's Top European Reseller, outselling all other resellers for the fifth year running. This has been achieved by over 100% increase in Inter-Tel sales in the last year and reflects the increase in new business sales by Actimax in 2006, with the company turnover mushrooming almost by the same amount. John Massey, md of Actimax, commented: "This has been achieved by providing complex and innovative solutions to companies that have moved to the Internet to increase their sales."
